SIALKOT, PAKISTAN — 32.4945° N / 74.5229° E

MANUFACTURING COMBAT SPORTS EXCELLENCE.

OEM • ODM • PRIVATE LABEL MANUFACTURING

COMPANY INTRODUCTION

BUILT IN SIALKOT. WORN WORLDWIDE.

Rainwolf Sports is a combat sports equipment manufacturer and exporter based in Sialkot, Pakistan — a city globally recognized for its craftsmanship in sports goods.

Established in 2013, we specialize in producing high-quality boxing, MMA, and combat sports gear for athletes, gyms, and brands worldwide.

We operate as both an OEM and ODM partner, offering fully customized manufacturing solutions tailored to our clients' needs — from concept development to final production, under strict quality control at every stage.

Our foundation is built on three principles: quality, communication, and long-term partnerships — whether small batch production or large-scale export.

MANUFACTURING CAPABILITIES

FROM RAW MATERIAL TO READY TO SHIP.

Every product in this catalog is manufactured in-house. One roof, one quality system — cutting, branding, stitching, padding, inspection and packing.

- | | | |
|----|---------------------|--|
| 01 | Raw materials | Leather, foams and fabrics inspected before a single panel is cut. |
| 02 | Cutting | Hand and die cutting to pattern, batch-tracked from the first panel. |
| 03 | Printing & branding | Screen print, embossing, sublimation and embroidery applied to spec. |
| 04 | Stitching | Double-stitched stress seams by specialised operators. |
| 05 | Padding & assembly | Layered, IMF and gel cores set and shaped by hand. |
| 06 | Quality inspection | In-line checks during production, full inspection on every finished batch. |
| 07 | Packaging | Poly bags to fully custom retail boxes, packed to export standard. |
| 08 | Shipping | Air, sea and courier worldwide with export documentation handled. |

MANUFACTURING SERVICES

YOUR PRODUCT. YOUR BRAND. **OUR FACTORY.**

OEM Manufacturing

Production of any model in this catalog to your specification — materials, colours, padding, closures and packaging — carrying your brand only.

ODM Development

Bring a concept, a sketch or a competitor reference. Our pattern room develops the product with you: prototyping, wear-testing and refinement through to production.

Private Label

Turn-key manufacturing under your label. We hold your specs, artwork and packaging on file so reorders are one email away — consistent, batch after batch.

Custom Product Development

New silhouettes, hybrid builds, new materials. Development runs alongside our standard lines with dedicated sampling.

Custom Colour Matching

Pantone-referenced dye and material matching across leather, PU, microfiber and fabric — approved on physical swatches before production.

Bulk Manufacturing & Export

Full production runs with flexible MOQ, export documentation, and shipment by air, sea or door-to-door courier worldwide.

CUSTOM BRANDING

EVERY SURFACE IS A BRANDING SURFACE.

Eight application methods, combinable on a single product. Artwork is proofed digitally, then approved on a physical sample before production begins.

EMBOSSING / DEBOSSING	Heat-pressed marks directly into leather and PU shells — the premium tonal finish.
SCREEN PRINTING	Multi-colour prints on shells, straps and panels with wear-tested inks.
EMBROIDERY	Dense-stitch logos on cuffs, garments, gis and bags.
MOULDED RUBBER PATCHES	Dimensional rubber branding for straps and equipment.
WOVEN LABELS & HANG TAGS	Custom-woven labels, care labels and retail hang tags to your artwork.
FULL SUBLIMATION	Unlimited-colour, all-over printing for fight wear and apparel.
CUSTOM PACKAGING	From printed poly bags to rigid retail boxes with inserts — shelf-ready.
INNER LININGS	Printed linings that carry your brand inside the product.

SECTION 01

24 MODELS · RW-BG

QUALITY CONTROL

INSPECTED AT EVERY STAGE. NOT JUST THE END.

Quality starts at purchase and ends at the container door. Four checkpoints stand between raw material and your shipment.

INCOMING INSPECTION	Leather, foams, fabrics and hardware checked against spec before cutting.
IN-LINE CONTROL	Stitch density, seam paths and padding checked during production, not after it.
BATCH TESTING	Impact, closure-cycle and seam-strength checks on every production batch.
FINAL INSPECTION	Construction, finishing, branding and packing inspected piece by piece before export.

100% BATCH INSPECTION

PROGRESS PHOTOS SHARED

PRE-SHIPMENT REPORTS

PACKAGING & EXPORT

PACKED FOR THE SHELF.
SHIPPED ANYWHERE.

STANDARD	Individual poly bag, size sticker, master export carton.
RETAIL	Printed boxes, hang tags, barcode labels — shelf-ready out of the carton.
PREMIUM	Rigid boxes, tissue, inserts and custom tapes for flagship lines.
EXPORT	Reinforced cartons, palletised or loose-loaded, marked to your forwarder's spec.

EXPORT MARKETS

United States · Canada · United Kingdom · Germany · France · Italy · Spain · Netherlands ·
Middle East · Australia

Shipping by DHL, FedEx, UPS and sea freight, with export documentation prepared by our team. Payments by bank transfer (T/T), Western Union, MoneyGram and Payoneer — terms confirmed per order.

CUSTOM PROJECTS

DON'T SEE IT?
WE'LL BUILD IT.

This catalog shows our standard patterns — the starting point, not the limit. Most of what leaves this factory is customer-developed: modified silhouettes, new material combinations, and products designed from a sketch.

Send a reference, a technical pack, or an idea. You'll get honest feedback on manufacturability, a sampling plan, and a quotation — the consultation is free.

01 – BRIEF	Share references, artwork and target quantities.
02 – DEVELOPMENT	Pattern, materials and costing agreed with our team.
03 – SAMPLING	Physical sample in 1–3 weeks with progress photos.
04 – PRODUCTION	Bulk manufacture, inspection and export.

START YOUR **PROJECT.**

Materials advice, sampling options and a quotation — free.
